Spring is a season . There are four seasons in a year: spring, summer, autumn and winter. People say spring is the queen of the seasons.

In the United Kingdom the first day of spring is on 20 March. The weather in spring is often windy and rainy. Birds build their nests and have their chicks. It's warm. We celebrate Easter Holiday. There are blossoms on the trees. They are pink or white or purple. During spring the days become longer. The sun warms the ground. The grass turns green.
